DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-24 and 27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 20 are indefinite because it is unclear how the pressure setting means for setting said pressure to a value obtained by adding a pressure corresponding to the road surface input to a lowered minimum value of said pressure, in case the slip between said transmission members is not detected in spite of lowering said pressure by the preset value using said pressure lowering means, even if the prerequisite condition is not satisfied during lowering the pressure. The specification discloses that the pressure setting means sets the pressure when the prerequisite condition is not satisfied, but it is not clear if specification discloses that the pressure setting means sets the pressure when the prerequisite condition is satisfied. The "even if" limitation is unclear because there is a question of whether or not the condition may or may not occur.

Response to Arguments

3. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
